---

A student with basic experience with jQuery and SQL. Always wanting to learn and expand horizons. Fancy making projects for clients with good quality. I like new challenges. My interest is in both teamwork and individual. I am responsible, persistent and can handle stress well. I am willing to adjust my behavior and functionality to make the customer feel safer. My knowledge of English is a 7/10 and my French a 5/10. I consider self-knowledge and "going for it" the most important.

## EDUCATION

SEPTEMBER 2019 – JUNI 2023
